

Flight of Ten Gift Aeroplanes And Inspection By Gov-General

Interesting Event At Beauville Camp To-Day When Vice Regal Party Visited Camp And Governor-General Formally Accepted Gift Planes

BEAUVILLE, June 1.—His Excellency the Governor-General visited the aerodrome at Beauville this afternoon. A flight of ten gift aeroplanes was made from the Leaside Aerodrome (north Toronto) to Beauville, where they were inspected by His Excellency. The distance, 60 miles, was covered in less than an hour.

His Excellency met a large number of the aeroplanists, namely, Mr. James Carstairs of Montreal, who had presented four battleplanes and three training machines; Sir William H. Murray, who had presented two battleplanes and two training machines; and Mr. W. H. Shaw, who had presented one battleplane and one training machine.

Internal Disorders Spoil Austria's Plan Counter Blow In The Autumn

Risks Have Paralyzed Progress
Offensive Against Italy

GENOVA, May 31.—Internal disorders in Austria-Hungary have paralyzed the projected Austrian offensive against Italy, according to a dispatch from Innsbruck yesterday.

Internal riots have broken out at Lathach and Orava, where Slavs and Jugoslavians attacked troops. The soldiers fired into the crowds, killing and wounding several.

Recent riots in Prague are said to have been decidedly serious. It is estimated there were 2,000 casualties.

Oil Discovered Near North Bay

CORBETT, June 1.—A discovery of oil has been made on the Canadian Northern Railway about 70 miles northwest of North Bay. The discovery was made near the boundary between the townships of Street and Scadding, which is a clearing on the crossing of the railway over the Wapitania.

The discovery was made on Thursday of this week at Sudbury. The area has caused considerable excitement, and already considerable attention is being given to the new field.

As to whether or not the find is of importance cannot be estimated, but reliable information obtained from the Geological Survey indicates the find to be of a very encouraging nature. A further field discovery is expected at or near the railway crossing, which was plainly felt, though it was not confirmed at Sudbury. The discovery was made at the Cobalt and Sudbury districts. It is believed that the oil is of good quality and is being sent to the coast for export.

Panic Followed Aerial Raid London

GENOVA, June 1.—Eighteen women and a child were killed and injured in a panic which followed an aerial raid on London yesterday.

The raid was carried out by a German bomber, which was shot down by British fighters. The bomber was seen to drop bombs on the city, and a panic ensued. Several people were killed and injured.

Special Despatches to The Intelligence, Canadian Press, Limited.

NEW YORK, June 1.—The Associated Press war summary today says:

Hurling the weight of great numbers against the stubbornly resisting French defence north and south of Soissons the German Crown Prince has been unable to make progress on this vital sector of the battle front from Noyon to Rheims. In the centre German detachments have reached the Marne between Chateau-Thierry and Dormant, while in the east the Franco-British line stands firm.

LONDON, June 1.—The German artillery was considerably active this morning in the sectors of Villers-Bretonnet, east of Amiens and Hebeaters, north of Albert. It is announced officially.

FRENCH COUNTER AND DRIVE HUNS BACK

PARIS, June 1.—(Official)—The German attack continued during the night with redoubled violence on the western side of the new salient between Soissons and Chateau-Thierry.

The French made counter-attacks and drove back masses of German troops in the region of Soissons and on the line of Chateau-Thierry, gaining ground everywhere and taking several hundred prisoners, the war office announces.

Along the northern bank of the Marne the Germans pushed forward advance parties from the north and east borders of Chateau-Thierry.

Along the southern bank of the Marne the Germans pushed forward advance parties from the north and east borders of Chateau-Thierry.

On the French right there was sharp fighting on the road between Dormant and Rheims. The situation is unchanged northwest and south of Rheims.

LONDON, June 1.—(Official)—A hostile raid was repulsed last night east of Villers-Bretonnet. Local fighting has taken place in the neighbourhood of Amiens.

Advantage at Ayres Wood, north of Albert. Prisoners have been taken by our troops in these encounters. The hostile artillery developed considerable activity early this morning at Villers-Bretonnet and Hebeaters sectors, and has been active during the night south and west of Amiens.

Statement Issued by National

Council Gives Detailed De-

tail of Criticisms

Printing a conference of Y.M.C.A.

leaders a statement has been issued

by G.E. Wood, chairman of the na-

tional council of the Y.M.C.A., which

sums up the recent criticisms and

questions from various quarters.

It is stated that the Y.M.C.A. is in

the nation business solely as a

medium of service to the soldier, and

every dollar of profit is devoted to

that service. The total cost of

maintaining its service greatly ex-

ceeds the amount of net profit from

the subscription funds raised in Can-

ada. In answer to the criticism that

was made regarding the price of chur-

ches, the following answer is given:

"The price charged for churches are

governed by the military author-

ities, and the Y.M.C.A. is not allowed

to undermine the expediency of this

policy in France."

Referring to the financial statement

it says: "In France the books of the

Y.M.C.A. are checked monthly under

all common operations, and are

checked by the army field auditors. These

are well as the accounts of the Y.M.C.A.

are audited regularly by a certified

bookkeeper, and those audited state-

ments, now issued every six months,

are sent to all offices commanding and

are printed in the Y.M.C.A. lists for

the information of the public."

Half Intelligence

The "half intelligence" of the German people is the subject of the editorial in the "Half Intelligence" column. The editorial states that the German people are "half intelligent" because they are not fully aware of the situation in Europe. The editorial also states that the German people are "half intelligent" because they are not fully aware of the situation in Europe.

HONORABLE PEACE AND THE HUNS.

"We hope that a decisive blow will soon fall and that an honorable peace will be obtained," says the editorial in the "Honor of Peace and the Huns" column. The editorial also states that the German people are "half intelligent" because they are not fully aware of the situation in Europe.

ONE WOMAN "OUT THERE."

Women have proved a very important factor in this war and from hitherto acts at home to driving millions men in the war and from hitherto acts at home to driving millions men in the war and from hitherto acts at home to driving millions men in the war.

THE FALL OF THE GERMAN "SUPER-WOMEN"

German Kultur has received a terrible shock in the discovery that its carefully planned campaign of Hate has not borne the fruit anticipated and some of the fair sex of the German Empire have been taken into communication with the imprisoned officers, and even to throw them things. Thanks, however, to the sharp rebuke given by the authorities, and even to the sharp rebuke given by the authorities, and even to the sharp rebuke given by the authorities.

LINDSAY PIANOS

THERE are three essential qualities to consider when buying a Piano, viz.—Appearance, Tone and Durability.

YOUR new Piano must possess artistic lines and beautiful finish, otherwise it will quickly become a sorry sight to your eyes. Lindsay Pianos are made in 4 styles, each of unquestionable beauty and faultless finish.

YOUR new Piano must possess a clear and sweet, yet powerful tone. Most pianos have this when they're new, but the Lindsay Piano is just as clear, just as sweet and just as powerful as on the day the Piano left the factory.

YOUR new Piano must be able to withstand the rigors of Canada's variable climate. Years hence you will want your Piano to look as nice and to play as well as it does to-day. The Lindsay Piano does this.

"When Mary Comes Home"

By GEORGE ELMER COLE

"What you want is an avenger," pronounced Bruce Warner once again. "An avenger," repeated Mr. Mark Bayne, owner of the leading department store in Belleville.

"Shirley, and I am sure we will have to go to the police," said Mr. Mark Bayne, who was a creditable, young man with a good head on his shoulders.

"You are certainly an original person," said Mr. Mark Bayne, who was a creditable, young man with a good head on his shoulders.

An Old Hero's Story

By F. A. MITCHEL.

An old Frenchman, a veteran of the Franco-Prussian war, who had been in America long enough to speak English as well as French, told me this story one day in a cafe in Paris.

It was in the beginning of the war when I was in France, and we were French people and we were not thinking of the war. We were thinking of the love of peace in Paris. I was in the army, and I was in the army.

MICHELIN

Twelve Tire Tests No. 5

This series of twelve tests is designed to show the superiority of Michelin tires.

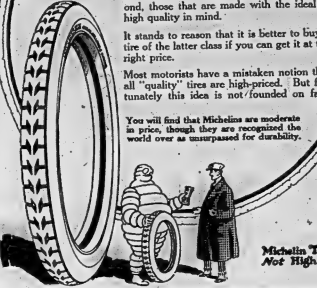

Price

YOU owe it to yourself before deciding on which tires to buy to compare the prices of various standard makes. You should, of course, also remember quality. For there are two distinct classes of tires—first, those that are made to sell at low prices, and second, those that are made to sell at high prices with the ideal of high quality in mind.

It stands to reason that it is better to buy it of the latter class if you can get it at the right price.

Most motorists have a mistaken notion that all "quality" tires are high-priced. But fortunately this idea is not founded on fact.

You will find that Michelines are moderate in price, though they are recognized the world over as unsurpassed for durability.

German Spies Are On Trial

Indictment Of Five American
Citizens And Two Germans
In New York

NEW YORK, June 10.—Five American citizens and two subjects of the German Empire, one of them a woman, are named in an information returned by the federal grand jury, investigators declared their operations the most sensational undertaken by Germany in espionage agents since the war began. The indictments allege conspiracy to commit treason, and also conspiracy to obstruct justice, and transmission of information relative to American prosecution of the war, the destruction of American planes, ships, and other property, and the destruction of American property, and the destruction of American property, and the destruction of American property.

THOSE CHARGED

The principal named in the charges are American Sinn Féin, a fugitive from justice, on charges of espionage and violation, for distribution of illegal anti-aircraft literature in the United States, which he was formerly editor.

"Madame" Marie K. de Victoria, alias, Barbara von Kretschmar, a blonde-haired German woman, appearing in appearance, and about 40 years of age. Carl Rodiger who claims Irish citizenship, but who is alleged to have been in the United States on a fraudulent passport. William D. Hollister, a New York resident, who is alleged to have been in the United States on a fraudulent passport. John T. Ryan, a Buffalo, N. Y., attorney, alleged to have been in the United States on a fraudulent passport. Albert Paul Fink, a Montreal, N. Y., resident, who is alleged to have been in the United States on a fraudulent passport.

Another Atrocity Of The Germans

LONDON, June 10.—Circumstances surrounding the sinking of the Lusitania are the highest degree of suspicion and suggest an atrocity of the Germans.

The Lusitania was a British ship, carrying a large number of passengers and crew. It was sunk by a German submarine on May 7, 1915, off the coast of Ireland. The ship was carrying a large number of passengers and crew, and was carrying a large number of passengers and crew.

FURIOUS GERMAN ATTACKS YESTERDAY WERE BROKEN UP BY FRENCH FIRE

ENEMY SEVERELY PUNISHED IN SUNDAY BATTLE

NEW OFFENSIVE OPENED BY GERMANS BETWEEN MONTCLAIR AND NOYON ON TWENTY-NINE FRONT-YESTERDAY.—ENEMY SUFFERED, SEVERE CHECK, BUT RETURNED TO ATTACK TIME AFTER TIME.—BATTLE CONTINUED LAST NIGHT WITH GREAT VIOLENCE.—FRENCH AND AMERICAN TROOPS IN VICTORIOUS ATTACKS ALONG THE MARNE, GAINED GROUND AND TOOK MANY PRISONERS.—ENEMY LOSSES VERY HEAVY.

Special Despatches To The Intelligence, Canadian Press, Limited.

PARIS, June 10.—It was a perfectly satisfactory day, said Premier Clemenceau last night. In these words the French leader accurately summed up the prevailing impression of the battle which raged all day yesterday on a twenty-mile front between Montclair and Noyon. Late advice from the battlefield show that on the whole the enemy clearly suffered a severe check on the day's operations.

BRITISH REPULSED GERMAN ATTACK

LONDON, June 10.—German troops last night attacked a British post in Avonley Wood to the north of Albert, the war office announced today. The attack was repulsed. The text of the statement reads: "We carried out a successful raid yesterday on a German post in the sector northeast of Bethune. A hostile attack during the evening upon one of our posts in Avonley Wood was repulsed."

BATTLE CONTINUED LAST NIGHT

PARIS, June 10.—The new German attack on the front between Montclair and Noyon continued last night with undiminished violence, the war office reports. On the French left wing furious German attacks made quick work of the front. On the French right wing the fighting was more quiet. The enemy was repulsed on the French left wing, but made some progress on the French right wing.

FRENCH AND AMERICANS VICTORIOUS

In the centre of the enemy, bringing up reinforcements, made further progress, reaching the southern part of Osville Wood and Resonance Mat.

French and American troops continuing their attacks in the region of Bruzailles on the Marne front gained ground and took prisoners. On the French right wing along the front of the new attack bitter fighting continued.

The French took more than 500 prisoners in various engagements.

The prisoners report unanimously that the losses of the Germans thus far in the battle which began yesterday morning have been extremely heavy.

BRITISH LINE IMPROVED

With the British Army in France, June 10.—Considerable local improvement of the British line took place to the south of the Somme was effected last night through a slight advance carried out in the neighborhood of Boncourt. Otherwise the night was generally quiet and the situation unchanged. Raids and outpost actions complicated the remainder of the British activities. The enemy shelling which was so heavy on the British right wing Saturday night and Sunday morning, preceding the attack against the French front, has again dropped to normal.

BUDDIES REPULSE ATTACK

WASHINGTON, June 10.—General Pershing's communication today reports the repulse of a heavy attack in the vicinity of Boncourt with severe casualty losses. There was lively artillery fighting in Chateau-Thierry and Ploisy sections.

Two Madoc Farmers Die From Gas Poisoning In Toronto

TORONTO, June 10.—William Lacey, aged sixty years, and Richard Goggin, aged fifty-eight, both farmers, of Madoc, Ont., were found dead in bed at two o'clock Saturday afternoon in a room at the Kirby House, Queen and William streets. Both men were lying in bed and the room was filled with gas fumes. When the proprietor of the hotel, John M. Blackhall, forced the door open he was compelled to retire from the room owing to the stinging odor of escaping gas.

The police were called in, and in their opinion both men had been dead for some time. An investigation made by P. C. Ward showed that the gas had got on the wall turned on off. Both men had come to the room from their homes in Madoc to attend the convention of the United Farmers' Association. They registered at the hotel on Friday evening and retired to their room early in the evening.

Both bodies were removed to the Morgue, and George M. A. McKelvie opened an inquest and adjourned the hearing until June 17. The bodies were taken back to Madoc today for burial.

Canadian Coal Supply Cut Down

Will Get Quarter of A Million
Tons Less Than A Year Ago

NEW YORK, June 11.—In its work to reduce the cost of coal, the Federal Coal Commission has announced that the production of bituminous coal has reached a new high in 1917, but that the output of anthracite is slightly less.

Every effort is being made to increase the output of the mines, though several factors tend to keep production from reaching the maximum. The low water level in the Ohio and other rivers has caused some delay in the shipment of coal. The mines in the West and the mines in the West and the mines in the West are working rapidly.

Hit By Torpedo, Ship Is In Port

Beliant Steamer Dodged Three Torpedoes, But Fourth Damaged Her

NEW YORK, June 11.—A German submarine, operating off the coast of Alabama, has hit a British steamer, the Beliant, with a torpedo. The ship was damaged and is now in port. The submarine was sighted by the ship's crew and fired three torpedoes, but the first three missed. The fourth torpedo hit the ship, causing damage to the hull and the engine room. The ship is now being repaired and is expected to return to service in a few days.

TERRIFIC BATTLE ON FRONT

PARIS, June 11.—The German drive on the front has been checked by the French, who have launched a brilliant counter-attack. The battle has been terrific, with the French taking a heavy toll of the enemy. The German advance has been stopped, and the French line has been re-established. The battle has been one of the most intense of the war, with the French showing great courage and determination.

Disgruntled Politicians Posing As Real Farmers

TORONTO, June 11.—The farmers will hold no more meetings in Toronto. The character of the no-hed! movement of the farmers is being questioned. The farmers are posing as real farmers, but they are disgruntled politicians. They are not interested in the welfare of the farmers, but they are interested in their own political careers. They are using the farmers as a tool to further their own interests.

Allotment of Coal

An interesting feature of the week was the announcement by the Federal Coal Commission that the distribution of coal will be based on the needs of the different industries. The commission has decided that the coal will be allotted to the different industries in proportion to their needs. This will ensure that each industry will receive the amount of coal it needs to operate.

Priests Can Shed Blood

QUEBEC, June 11.—The priests of Quebec have been ordered to shed blood. The government has decided that the priests are not neutral in the war, and they are being ordered to take an active part in the war effort. The priests are being ordered to shed blood for their country.

Special Despatches to The Intelligence, Canadian Press, Limited.

PARIS, June 11.—All advances from the battlefield today show that the enemy is putting forth every possible effort in his design to push to the west. The French are holding the enemy back, but the enemy is making great efforts to break through the French lines. The battle is still going on, and the French are determined to hold their ground.

Sabotage Reigns In Dual Empire Patrols Killed

BERNE, June 11.—Sabotage is reigning in the dual empire. The German and Austrian governments are both engaged in sabotage operations. The German government is using sabotage to weaken the Allied forces, and the Austrian government is using sabotage to weaken the German forces. The result is a state of chaos and confusion in the dual empire.

Labour Situation Serious

Of course it is one thing to make an attempt to get a different kind of labour to produce the coal. The labour situation is serious, and the government is taking steps to deal with it. The government is trying to get the labour to work for the war effort, but the labour is not willing to do so. The government is trying to force the labour to work, but the labour is resisting.

APRIL, June 14-Germany, although
looking on the western front, is
driving, says the Echo de Paris. A
cable appearing in the Berlin
Zeitung relates the details of
children starved to death in an
exchange at Zerfeld, Thuringia.
The exchange was found to have been
ruined by its starving inmates,
and physicians who visited the place
and several of the children were
killed.

Professor Franz R. Hein, the wide-
known economist, writing in the
Berliner Zeitung, of Munich,
warns the Germans that the coming
winter will be harder than any that
we passed and promises to foresee
general paralysis in the supply of
food.

PARIS, June 14.—(C) One hundred and six airplanes, carrying 28 bombs each, ranged at a height of 1,000 yards and broke up an enemy concentration, the Paris Journal said today. After the attack the German corpses lay in wreaths.

3 Hun Divisions Destroyed.

Paris, June 14.—The fourth day of the battle (Wednesday) was still without decisive results, the Journal declared yesterday.

"The Germans are still within six miles of Compiègne," the Journal said. The French withdrawal east of the Meuse, will have no influence on the issue.

In summing up the four days' drive towards Paris, the Journal said the Germans made a maximum advance of three miles, paying the way with 35 destroyed divisions (360,000 men).

[illegible]

A favorable feature of the new development is the general tendency of the German army to be concentrated in the south. There is now no talk of a German thrust in another direction.

The line of the allies has been stabilized, and the character of the fighting is apparently changing in their favor. Both sides appear to have the situation well under control.

The French government has acknowledged the wonderful record made by sixteen girls in the South College unit who fed 20,000 wounded in ten days when captured in the German drive.

Graph Briefs

At the German Admiralty intends to declare the eastern coast of the United States a danger zone and will warn neutrals.

Complete repulse of enemy attacks on the German front was reported by Gen. Fuschling's communication last night.

The Children's Happiness

Can be assured by providing plenty of music in the home

AND incidentally their education will be more quickly and easily acquired, for, according to authorities on childhood education, music, instead of interfering with school work, is actually of a great help as a spur to all the other mental faculties of the child.

To cultivate the love of good music in your children nothing will do so much as a

good Player-Piano. Children are natural imitators, and what they hear on the Player-Piano they learn to play. With a Player-Piano in the home you will not only satisfy their craving for music but also furnish the incentive to learn. Before deciding what particular make of instrument to buy bring the children along to see and hear the

Large Increase Of Traffic On C.N.R.

A remarkable increase during 1937 in handlings of livestock at Western Canada, sheep, dressed meat, and dressed poultry, over its tips in better Canada is indicated in a statement compiled by the Traffic Department of the Canadian National Railway. Any great increase in tonnage in these commodities, of course, could not be accomplished without pronounced progress in peasant farming in areas served by the C.N.R. in Manitoba, Saskatchewan, and Alberta. It is significant that the prairie provinces are becoming exporters of dairy products from stations on the Canadian North-

western lines reached a total of 2,433,000 pounds as compared with 2,133,000 pounds in 1936, an increase of 2,924,000 pounds or 13 per cent. The butter shipped amounted to 8,180,000 pounds as compared with 8,000,000 pounds in 1936, an increase of 180,000 pounds. The cheese shipped totaled 1,052,000 pounds as compared with 1,040,000 in 1936, an increase of 12,000 pounds. The live sheep shipped totaled 2,200,000 in 1937, as compared with 2,100,000 in 1936, an increase of 100,000 pounds. The dressed meat shipped totaled 1,100,000 in 1937, as compared with 1,000,000 in 1936, an increase of 100,000 pounds. The dressed poultry shipped totaled 1,100,000 in 1937, as compared with 1,000,000 in 1936, an increase of 100,000 pounds.

Of cattle in 1937, there were handled 5,423 cars, as compared with 5,200 in 1936. The 48,000 head of cattle were shipped with 1,200 in 1936. GOODRICH SERVICE VALUE TIRES

The history of the last twenty years of the B. F. Goodrich Rubber Company is pretty much the history of automobile tires. But whether Goodrich was bringing finer America's first tire, or America's first tire, Goodrich built tires to better end—service value to the user—the work of the tire to the motorist on his car and on the road in comfort, economy, dependability and durability, and safety.

That is why the tire today gets the utmost service value in Goodrich Silvertown Cord, and Black Safety Treads.

ROME, June 15—Italian forces have taken 1,850 additional prisoners during today's fighting and prevented successful attempts of the enemy to establish new openings on the right bank of the Piave. Vigorous Austrian advances were crushed by counterattacks. The War office reports that the violence of the battle has somewhat decreased since the morning, but it is increasing along the Piave River.

The third army withdrew the powerful assault of the enemy yesterday. The front of Maresca and in the center (on the Piave River) renewed attempts to establish new openings on the right bank of the river were unavailing.

Casualties in Montebell-Noyon Attack Should Make Von Ludendorff Reflect

PARIS, June 15—Kaiser showed German high command made prisoners during the offensive between Montebell and Noyon, Captain Andre Tardieu, the accomplished Premier Comptroller, to the first on Sunday, said Marshal Haig, father of the Boche in Paris, on his return.

"This is a figure which should make von Ludendorff reflect," he said. "The enemy could not expect such an exceptional impression of the results obtained by the counterattacks of divisions under de Maig. Against the flank of Gen. Von Ludendorff's army, the British and other counter attacks, the magnificent operation has halted the enemy in the open and completely checked the advance towards Compiègne. German divisions could not attempt to hold their positions at the cost of their lives, but they must be satisfied with their objective."

Special Despatches To The Intelligence, Canadian Press, Limited.

PARIS, June 15.—The Germans last night after violent preparation, commenced a new attack on the Rhine front between Vimy and La Pompelle, the war office announced today. The front of the new German attack is a semi-circle drawn by the enemy about the city of Rheims, the recent offensive on the Alsace front the Rhine region comprised the left bank of the German attack. Ground was given up by the Germans on both sides of the Cathedral City but the town itself and nearby protecting towns were against the German onslaught, and have since remained in French possession. Rheims, however, was bombed on three sides by the enemy, and it has been considered only a question of time when the Germans would make a concerted movement to cost it defenders. The front of the present attack, of Vimy, west of the city to La Pompelle and around the semi-circle to the east is approximately fourteen miles.

Cities Render Practical Help

It is not often that the residents' work should be begun. Telephone and telegraph wires were put into operation. And by the date set seventeen tractors and the requisite plows and other implements were got together. One of thousands of acres of large virgin land are being turned over over the country in order to par and cultivated in order to raise the price in the event.

Seldom has such an array of increased crops to supply the farm machinery been concerned with the Allies, the spectacle being on an area of two hundred acres, the citizens of Cal. area. Never, perhaps, has such a large, Alberta, recently was an area been broken and cultivated. Not far from the city there was no competition, all the land were to be put under the plow. The use of the land further, the machinery was used to be granted to the city of wanted in the country, and it was through the courtesy of most not hurry in the city. In the Canadian Pacific Railway work being completed in one day, an achievement which, if it had been accomplished, would not easily surpass.

A crop of oats, potatoes and flax is now grown on the land and it is hoped that this will add considerably to the production of the city. The illustration shows the work on the land.

CRISP COMMENT

Get your coal in while the peltin is good, not wait until it is cold and the prospect of even less heat last winter.

Kingsmen people visiting Belleville has Sunday saw Charlie Chaplin walking up down Front street, wearing a smile and a cane and other clothes, including an awner's uniform, hat.

And H. Harley Dewar, wearing a pair of overalls, accompanied by a woman, and a group of men, were seen walking and leading the Jews of Toronto to Jerusalem and the graves of North Toronto Ottawa—Toronto Telegram.

An arctic blizzard in the Belleville country last night, but unlike the permanent residents of that city some will not have to wait for the heat until before taking an interest in early thing again. His wings were slightly damaged, but he is a lively bird.

In 1913 the number of motor cars owned by farmers in Ontario was 398. Last year this number had grown to 80,000. In the Province of Saskatchewan there are 30,000 cars. The motor car has come to stay. It will not only be pleasure, but it is the greatest of modern utilities.—Toronto Star.

Belleville, surrounded on three sides by the enemy, is proving a hard nut for the Huns to crack and gives them a taste of what is to be before them as the Allies advance and make the position more and more untenable for the Huns. The Huns have deliberately destroyed Belleville with shell fire and they can also make the water when the full price is exacted in man-power by food.

The various positions to be taken in connection with the opening of the Trent Valley Canal for traffic, such as locksmen, bridge tenders, etc., are being considered by the Government. The Government of Parliament for West Hastings, whose policy is "soldiers first," will be that the returned soldiers get first consideration for the work.

There is every prospect for a mark at the registration booth on Saturday, as many of the residents of the surrounding district who will be in the city attending the market and close board will register for the first time. The time taken for the market and registration will be about an hour, this being the possible amount of standing in line a hour on Saturday week.

QUITE SO.

Toronto, June 10.—There are people who think that the Government should be more lenient in its treatment of the returned soldiers. They say that the Government should be more lenient in its treatment of the returned soldiers. They say that the Government should be more lenient in its treatment of the returned soldiers.

THEY MEAN BUSINESS.

London, June 10.—The British Government is determined to maintain its position in the world. It is determined to maintain its position in the world. It is determined to maintain its position in the world.

KAIERS' SPACE LEES.

There are one or two things in common about Attila and Wilhelm. Both were conquerors. Both were conquerors. Both were conquerors.

THE RIGHT PLAN.

Conscription is beginning to justify itself. Thirty-seven thousand recruits for the army have been taken. Thirty-seven thousand recruits for the army have been taken. Thirty-seven thousand recruits for the army have been taken.

THE DEMOCRACY'S FAILING.

The Government's policy is to maintain its position in the world. It is determined to maintain its position in the world. It is determined to maintain its position in the world.

AUSTRIANS SEVERELY PUNISHED IN DASHING ITALIAN COUNTER-ATTACKS

ALLIED POSITIONS ON WESTERN FRONT IMPROVED

AUSTRIAN OFFENSIVE HAS BEEN GREAT VICTORY FOR ALLIES AND MAY RESULT IN EVEN GREATER DISASTER FOR AUSTRIANS, WHO ARE STILL DESPERATELY STRIVING TO MAKE OPENINGS IN ITALIAN LINE OF DEFENCE—AMERICAN FIGHTING FRONT ENEMY IN ITALY—ON WESTERN FRONT FRENCH AND BRITISH BUILT LAST NIGHT IN LOCAL OPERATIONS IMPROVING POSITIONS READY FOR NEXT GERMAN DRIVE.

Special Despatches to The Intelligence, Canadian Press, Limited.

LONDON, June 21.—Italian forces are now counter attacking at various points along the whole Piave river line.

On the middle Piave the Italians have driven forward to the west bank of the river, splitting the Austrian forces in that region and rolling them back to the north and south.

The enemy detachments on the lower Piave have been pushed back until now they hold only a third of their original advance towards Venice.

The Italians also made a further slight gain at Nervana in the Montebelluna region.

PARIS, June 21.—French troops last night carried out operations on the front southwest of Solsona which resulted in the improvement of their positions in the neighborhood of Faverolles. A similar improvement was effected further south on this front near Magenta.

LONDON, June 21.—Further intense raiding and patrol operations were carried out by British troops last night in the Arona region, and on the front to the south towards Italy. Attempts of the Germans to regain the ground wrested from them yesterday by the British near Meris, on the Flanders front, were repulsed.

AUSTRIANS DEFEATED WITH ENORMOUS LOSSES.

ROME, June 21.—Eberhard the Austrians to the northeast—eastern salient of Montebelluna, keystone on the Piave front, toward the west, have failed, Premier Orlando informed Parliament. The enemy's losses during the day were enormous. The Italians took several hundred prisoners. American aviators destroyed the Austrian bridges across the Piave River. Toward the south, the Premier stated, the enemy again succeeded in crossing the Montebelluna-Sonogarda railway at several points near the Nervana station, but was promptly stopped. On the lower Piave the Italians gained more ground.

BIG ATTACK EXPECTED ON BRITISH FRONT.

PARIS, June 21.—(Havas News Agency)—Grave events are impending on the British front, according to military experts, who see in the intensity of the German cannonade at various points the preliminary steps of a new German attack. It is pointed out that the fourth army group under Crown Prince Rupprecht of Bavaria, has had orders for reorganization during the three weeks since it was engaged in battle, and is now ready for a new offensive along the front. It has been established that units of the Crown Prince Rupprecht were engaged in the abortive attack on Rheims on Tuesday night. This is considered proof, say military experts, that the German Crown Prince's army is tired and exhausted.

General Disease Bar To Marriage

Ontario Government Passes Regulations To Curb the Plague

TORONTO, June 22.—Drastic regulations based upon the Venereal Disease Prevention Act adopted by the Legislature last session, have been passed by the Ontario Government. They strike hard at the plague that has been undermining social life in the Province, as in other countries. Perhaps the most sweeping provision contained in a prohibition of marriage by any person suffering from venereal disease, and any act that is likely to result in the spread of the disease is similarly regarded as an offence. In both cases heavy fines may be imposed and the offenders sent to prison, for a year.

The regulations as finally approved are quite as radical, but not so far-reaching in their scope as those favored by the Provincial Board of Health and the medical experts who held several conferences upon the subject some time ago. It was at first thought will to carry the fight against venereal disease into the harbor shops and public washrooms throughout the Province by requiring careful disinfection of further instruments and by prohibiting the use of the common bath.

Further consideration of the subject, however, has convinced the authorities and the Government that the regulations as finally adopted are far-reaching enough as a beginning. The Act goes into effect on July 1st, and arrangements now being made to supply means. At the start it is expected that the chief task will be to treat inmates of jails, hospitals, asylums, and other institutions where the venereal disease is rampant. Under the regulations, report daily every case of infection.

The regulations provide that where a person is suspected of being affected or exposed to infection with venereal disease he may be treated by the local M. H. O. to prevent him self before a physician to examine him within 24 hours and within another 48 hours to appear before the medical officer with a certificate showing the result of the examination made.

It is declared that every person infected with venereal disease must place himself under the care of a medical practitioner, or, if unable to secure medical attendance he must apply to the local officer of health. He is required to obey the doctor's orders under a penalty of not less than \$25, or more than \$100. The regulation says: "He shall abstain from marriage, sexual intercourse or any conduct likely to infect another. He shall continue treatment until pronounced non-infectious, and in default of which he shall be reported to the medical officer of health." Any violation of this regulation makes the individual subject to a fine of not less than \$100 nor more than \$500 or twelve months' imprisonment.

Think They Have Very Dangerous Man

LONDON, Ont., June 22.—Two suit cases of evidence have been brought from Windsor to be used against John Forbush, the ringmaster of the trouble in Windsor on Thursday night. Articles found in the house at Windsor have led military authorities to believe that he is a very dangerous man, in other words, two small make-up, as are found for signing purposes, complete set of theatrical make-up, including beard and green paint. Photographs of several important railway tunnels and bridges and prominent public buildings were also among the things confiscated by the Dominion Police. Many letters postmarked from the U.S. and literature of the hottest type, and a large supply of stationery, thought to designate some secret society were also found.

The civil police are assisting the military authorities in looking up the last resort of Forbush, a member of the thirty-one men under arrest here through the trouble at Windsor. It is believed that the leader and some of the men have been connected with similar trouble in the United States.

The U.S. will grant Distinguished Service Medals to exceptional shipyard workers.

James Connors, Detroit, Police Commissioner, is a likely majority candidate.

"Please Give Us A Piece of Bread"

Countless Children Begging from Door to Door in Vienna

LONDON, June 22.—A picture of the Vienna in distress is a despatch from The Hague reproduced from the Arbeiter Zeitung, of which there comes a modest tap at the door. A little boy and girl stand outside, thin, pale, thin as shadows. They shrink into a corner and give voice whisper anxiously, "Please give us one small piece of bread."

The children knock at many, many doors, and yet will have whistled little scraps of bread are to be seen in their dirty little aprons.

They get the same answer every where: "We haven't bread enough for ourselves, how's it possible to have a bowl for you."

Canada Paper Price Stands

Will Remain Unchanged Until July 1st—Then Possibly Extended

OTTAWA, June 22.—Commissioner Pugsley stated that there is no likelihood of the price of newspaper in Canada being immediately fixed at \$5.10 per hundred as the result of the fixing of this price in the United States. Commissioner Fringe stated today the present price will hold till July 1st, when it may be extended till the end of August, by which time investigations as to the effect of protection will be complete. The price will then be definitely decided.

Urges Economy in U.S.

Washington, June 22.—Publishers were again urged by the Federal Trade Commission to reduce consumption of newspaper paper in a statement today showing there was no great saving in the U.S. following a previous appeal. There was a slight decrease in the percentage of returns, for copies, "over" against a total of 100,000,000 copies of newspapers, but a considerable increase in the percentage of returned copies of semi-weekly and monthly periodicals.

ALL OUT ALLOWANCES

The following announcement is made by the Department of Militia and Defence:

A statement has appeared in the daily press to the effect that payments for certain allowances have been withheld to extend to the dependents of soldiers and living in Canada. This statement is not in accord with the facts, as a separation allowance has always been paid since the beginning of the war to the dependents of soldiers serving in the Canadian Expeditionary Force, either in Canada, England or elsewhere, on matters where these dependents reside.

MILITARY SERVICE ACT HAS SUPPLIED 74,102

OTTAWA, June 22.—The following statement was issued by the Department of Militia and Defence:

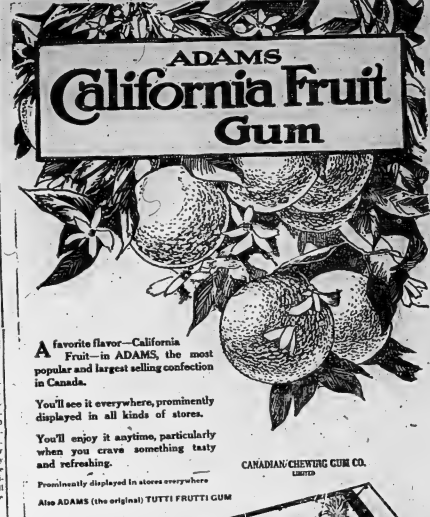

"In connection with the recent published returns, covering the operations of the Military Service Act, it is evident from some of the comments in the press that the form in which the statement was made out, has led to misunderstanding as to the total number of men obtained in relation to the 100,000 reinforcements authorized by the statute."

"The total number of men obtained by the machinery of the Military Service Act up to June 13 was 74,102, which may be added for the purpose of determining the number of men available, 15,897 who have reported voluntarily."

Fired Elevator, Robbed Manager

MOSEBAY, June 22.—Bentley set fire to the arena. Trading Company an grain elevator, causing a loss of \$100,000 in grain and a million loss in freight; sacked the manager, Charles Hall, and released him. Plans had been made for the fire and robbery the fire department's engine was put out of commission and an automobile was waiting so that the men could make a getaway. A posse is pursuing the bandits.

Have You Been to Doc. Nature, War Strain Specialist?

"There are war times, and I'm too busy to take a holiday. I work all day and night, and I have not the energy for a holiday," said a business man who in addition to his own office work attended each week a dozen or more patriotic and war committee meetings.

No wonder that in time the doctor was sent for, and ordered him to a

sanatorium.

He did not remember the headlines that he wrote in his school copy-book: "A stick is time well spent," otherwise a month at a holiday resort would have saved him a year of ill health. Nature is the one great healing obdurate for the tired and overworked, and nature is always best when using preventative. The cure, too, but she prevents in all cases where a breakdown is threatened.

Soldier recruits of this country are at their brightest during April, August and September. They have working home fighter needs have as much as the soldier needs his period of recreation behind the firing line, and every train should bring visitors to Dr. Nature's apple-awet Annapolis Valley, from streamlined New Brunswick with its golf links at St. Andrews-by-the-Sea, to the silver

lakes and streams of Quebec and Ontario, to the Canadian Pacific Rockies, and their thousands of square miles of Alpine parks, where trails lead up to the electric, and where thousands visit the summer hotels at Banff, Lake Louise, Poudre and Glacier. The stream of tourist traffic flows out to Vancouver Island and on to Alaska, the Land of the Midnight Sun.

In spite of war conditions, Canada

still retains good service for passengers on her railways. Life has become simpler, and one has to be content sometimes with an upper berth, while the regulations of the Food Board are rigidly observed on the dining cars, but the health resort is recession not as a luxury, but as a necessity, and Canada's summer travel promises to be as active as ever.

Are your eyes well dressed?

There is "style" in glasses as well as in clothing. There is no more reason for wearing glasses that are unbecoming than there is for wearing those that do not fit your eyes.

Efficient Service

We have established a service that takes in every branch of eyeglass science.

We fit your eyes correctly and scientifically. We furnish you with glasses that it will be a pleasure for you to wear.

Everything that eyes need will be found at—

TOASTER—\$4.50.

Toast that is crisp and crackling, served either buttered or plain, the kind that tickles the palate and pleasantly glides down the "rod line."

ELECTRIC GRILL—\$3.00.

When the housewife uses our electric grill she is independent of Old King Coal. She can cook a square meal on this round grill without fuss, mess, bother or delay. It broils, bakes, fries: keeps the food hot and cooks cool.

IRON—\$4.50, \$5.50, \$6.50.

When a woman buys one of our irons the proof is that her common sense is working uncommonly well. She gets an iron that doesn't add to her collection of rusted iron may agencies but reduces her ironing. Our iron is the best ever made and consumes less current because its units have more efficient rollers. This also insures longer life to the unit.

Kerensky Saved By His Disgrace

With Record and Soldier's Uniform Eluded The Bolsheviks

LONDON, June 20.—Alexander Kerensky, former Russian Premier, made a dramatic appearance at the British Legation Conference here.

Kerensky, who has variously been reported to be on his way to Japan, and as organizing a new Russian revolution, was his first appearance at the Babbitt, arrived in London on the 19th of June.

"I am certain the Russians will shortly join you in the great cause of freedom," said the former Russian Premier. "I have just come from Moscow. My duty as a statesman is not to be deterred, and I will do the whole which the Russian people are a democracy, fighting a tyrant."

Millions of Buddies To Beat The Huns

WASHINGTON, D.C., June 20.—Secretary Baker declined to the House of Representatives that within three months an enlarged army project now being worked out will be presented to Congress to represent the maximum fighting effort of the country.

Already the calculations upon which the previous army bill was framed have been exceeded and the War Department is now revising the plan on an enlarged scale that would add additional millions in money and additional millions in fighting men. During the debate figures were discussed, showing the great stride being made toward bringing American fighting power to the front in France. During the debate it was claimed that if the highest hopes are realized 1,500,000 men will have reached France some time in August, and that there will be a total force of approximately 2,000,000.

War Garden Bulletin

PRACTICAL ADVICE FOR VACANT LOT AND BACKYARD GARDENERS ENLISTED IN GREAT PRODUCTION CAMPAIGN.

GET THEM RIGHT Every vegetable need for canning, preserving or storing should be of the best quality. For satisfactory results it is necessary not only to have seeds which are absolutely free from decay but to select them from the right stage of development. Even if perfectly sound, overripe vegetables are not satisfactory for canning because they contain too much water and become soft and watery. The best time to select them is when they are just beginning to show signs of ripening. This not only insures the best quality but greatly increases the work of preparing them for canning or for drying, and, in the case of vegetables which are to be stored, it insures a longer life.

Liquor Orders By Wholesale

Allegation of Inspector Against A Physician of West Hamilton

HAMILTON, June 20.—A fifteen-year-old boy, one of a widespread mob, was fined \$200 in the Police Court Tuesday afternoon for a breach of the Ontario Temperance Act. When arrested the lad was under the influence of liquor, and had been drinking for some time.

He said he got the liquor at the dispensary with orders from Dr. Sharpe, an elderly practicing physician in West Hamilton. Inspector Galt, who made the arrest, said he was on a wholesale sale, and was a doctor's order.

There was a dramatic scene when well-dressed, respectable residents of the town, and father of the boy, asked permission to speak. It was refused, and the boy was taken away by the police.

ELECTED PRESIDENT

At the annual meeting of the Central Association of stationery employees held at the Hotel Cecil, Mr. W. C. Cooke, of this city, was elected President for the coming year.

HAYING COMMENCED

Haying has commenced in this district and farmers are busily engaged in mowing. The city is now loaded with hay to the average of seven years.

DESCENDING SOLDIER RETURNS

The members of St. Vincent's "Paul's" Church, Deseronto, held a social and dancing at the hotel, and were well patronized after three years' absence from the western front. An address and a well-timed prayer were presented to him, after which an encouraging service was given. Corporal Brennan was last 17 years of age when he enlisted. He served with the artillery at headquarters. All the members of his household were present.

FULL OF LIFE

Open a bottle of Imperial. Pour quickly, or it will foam over. Fill your glass with the amber beverage, watch the bubbles rise. Clear as crystal. Now for the crucial test. How does it taste on the palate? ... Ah! that's fine—the mellowness of the malt—the tang of the hops. You get it all in

O'Keefe's
IMPERIAL BEERS
Lager : Ale : Stout

After effects? Yes, you feel refreshed, invigorated, you have the inclination to smack your lips. This is wholly due to the nutritious, tonic value of well-brewed malt and hops, and in the least to alcoholic content, for the law is strict and is strictly observed in Imperial brews.

Your whole family can drink O'Keefe's Imperial Lager, Ale or Stout with real benefit as well as pleasure. Its use is ideal at this season of the year. Try it. It is full of life and zest!

Order a case from your grocer. Ask for O'Keefe's at hotels, cafes or restaurants.

O'Keefe's Ginger Ales in all flavors including Cola, are indisputably the best of their kind. Your grocer can supply you.

Gasoline Shortage Before End of Year

Tank Cars Being Called To The
Seaboard

WINDSOR, June 28.—Although at the present time the gasoline supply throughout western Ontario, and particularly west of London, is sufficient to meet ordinary demands, gasoline men and dealers agree that before the year is out a real shortage will be experienced.

Tank cars which have been coming out of all parts of the country, and a majority of which are owned by American railroads, are being regularly called in by the United States Railway Administration, as they are needed to carry fuel to the seaboard, and this will mean that many interior points far from the main arteries of railroad travel will be left without facilities for obtaining gasoline.

"It will not be a shortage of gasoline itself, but of means of transporting it," said one big garage man here today. "Even if we had more storage tanks than we have already, I doubt if we could get them filled up, as our trucks are only moving enough gas to keep us going." Prices in Windsor for best quality gasoline remain at 35 cents a gallon, while farther east the cost gradually rises. At London, 60 miles west of Windsor, the price of gas is 35 cents, at Hamilton, 140 miles away it sells at 40 cents.

Daring Robbery Three Arrests

TORONTO, June 28.—Three young men were arrested in the Robert Simpson store, charged with theft of a parcel containing three hundred and fifty-five dollars in money from the T. Eaton store on June 7. The theft was one of the most daring daylight robberies in years. Harry Coleman, 115 Eglinton street, Massey Brown, 250 Sussex street, and Benjamin Hershberg, 77 Broadview street, the three youths accused, are also to be charged in Police Court with picking pockets in the downtown departmental store.

The police say that the three pickpockets kept a close watch on the manner in which the thief in the exchange office of the Eaton store, handled their money around closing hours in the evening. Around closing time on the afternoon of June 7 the three are alleged to have gathered around the cashier's wicket while she was filling up her cash. They saw her throw down a parcel on the counter in front of her, containing a large sum of money. One of the trio is said to have snatched up the money and putting his hand through the wicket, snatched the parcel from the front of the girl and disappeared in the crowd. The young girl in charge of the counter was so startled with what had happened that she never saw the thief. When the police saw the three they had made good their escape.

DIVIDED THE SPOILS

After taking the money, the detectives says the three went up a lane of Yonge Street and divided the stolen money. They then went to Detroit, purchased new clothing and returned to Toronto from the United States four days ago. They registered under fictitious names at a Queen Street hotel.

The police were furnished with a description of three men and they say that it corresponded with that of three men whom they had received numerous complaints of picking pockets in the downtown stores.

Early yesterday afternoon the detectives were notified that three young men were loitering in the vicinity of the exchange office of the Simpson store. Detectives Leonard Armstrong and Archibald were detailed to keep a close lookout for them. Nearing closing time the detectives spotted the three and then apprehending them took them over to the Central station. It is said that they admitted stealing the money, and further alleged they were figuring on obtaining a larger sum of money from the Simpson store yesterday.

WOMEN SCRAM AT NIGHT

MONTREAL, June 28.—As a result of the recent explosion of ten tons of dynamite in the north end of the city, a number of cases similar to that which are being reported. Many women still wake in the night screaming, and a number who work in downtown offices are not yet able to return to their desks.

You pay the same war tax on a pound of cheap, poor tea that you pay on Red Rose. In other words you pay 10¢ war tax on a cheap tea which will make perhaps 150 cups to the pound and you pay the same 10¢ tax on a pound of Red Rose which easily makes about 250 cups.

You will find today more value, more economy, more real satisfaction in Red Rose Tea than ever before.

It is truly a war time tea.

MICHELIN

Twelve Tire Tests, No. 8

The series of twelve tests is designed by the Michelin engineers.

1 Organization

MICHELIN's usefulness how it can be possible to sell Michelin at such low prices in view of the numerous passed quality which is built into these tires.

The answer lies in the Economical / Efficiency.

Ever since Michelin invented the pneumatic automobile tire 23 years ago, Michelin engineers and efficiency experts have

studied means of producing and selling tires more efficiently.

Every expenditure that will result in better tires or services has been cheerfully made; but every expense that would not stand this test is scrupulously avoided.

Economical Efficiency has enabled Michelin to supply the motoring world with "better tires" for a less money.

Only Police Can Demand Card

OTTAWA, June 20.—Don't produce your registration card unless it is made by a properly authorized police officer, police officer or constable. No one else has any right to demand that you show your card, in fact, have no authority at all to require you to do so whether you have registered or not. There has been considerable misunderstanding over the provisions of the registration act in this regard. The clause 27 of the act makes the following plain: "Following the class of registration on Highway Act, restaurant keepers, hotel managers and local railway ticket agents were included just to serve anyone or sell any tickets, etc., until the person had been issued a card. This clause orders came from the police department, and the registration officers had no authority to give any card and demanded of everyone that they produce their card. The result of this was that many persons on Monday morning had their card along was turned away and had to return home and wait till the department before they could satisfy the law. The clause 27 of the registration act, however, reads as follows: "Any landlord, proprietor, manager, clerk or employee, or hotel, public house, inn, tavern, club, restaurant, or boarding house, after the time when the person should have registered, knowing such person to be unregistered, shall be guilty of an offence, and be liable to a fine not exceeding one hundred dollars." This clause simply means that if any of the persons mentioned know of a man whose card has not been registered, it is his duty to report the matter to the proper authorities. If he does not do so, he is liable under the act. In such a case he will be liable to serve the cost of the matter, but the authorities have decided the case; but in no instance has he the right to demand that the registration card be shown.

LANDLORD'S OBLIGATION

Clause 30 of the registration act, however, reads as follows: "Any landlord, proprietor, manager, clerk or employee, or hotel, public house, inn, tavern, club, restaurant, or boarding house, after the time when the person should have registered, knowing such person to be unregistered, shall be guilty of an offence, and be liable to a fine not exceeding one hundred dollars."

TIP TO THE POLICE

Clause 37, in part, reads: "Every person who shall have registered shall at all times thereafter carry upon his person his registration certificate, and shall produce it when required by any police officer, or by any person authorized by the police officer to demand that the registration card be shown."

War Garden Bulletin

PRACTICAL DAILY GUIDE FOR VACANT AREAS AND BACKYARD GARDENERS ENLIGHTENED IN GREATER PRODUCTION CAMPAIGN.

100% USE OF VEGETABLES

The most general use of vegetable as substitutes cannot be too often repeated. Their worth is not half appreciated and the war garden flourishing there is a tendency to be wasteful when such an abundance of garden-trust is available.

As a matter of fact, their name are not exhausted when they have been served as fresh greens, made into salad or boiled according to custom. Much of the sugar and mineral content, so valuable and pleasant to the taste, is generally lost by cooking because women do not study ways and means to conserve it. None of the elements should be wasted. For instance, carrots, corn, peas, beans, etc., are rich in sugar and the water in which they are cooked should be saved for soup. Spinach should always be cooked in its own juice and very appetizing served. Onion water may be used for gravies and soups.

Delicious soup is made by simmering potatoes "diced" with onion, peas, onions and seasonings. A thick puree which is combined with this cream sauce is made of this composition.

NO PENALTIES FOR DIGITARIANS

HAMILTON, June 20.—Mr. F. L. T. Thurston, president, speaking at the annual convention of the West-ern and Ontario Counties W. C. T. U., condemned grape juice, warned her members to be careful how they served it, and then switched off to an attack upon roughness, cigarettes and patent medicines. The speaker said: "We sing here to do with the cigarette, which are the root of evil."

The "anti-smoker" report presented by Mrs. E. J. Walter said: "The superintendent would suggest that distribution of cigarettes will cut out by the tobacco trust urging the children to save their copper for tobacco and cigarettes for 'tommorrow' whereas they should be discouraged."

TOASTER—\$4.50. Toast that is crisp and crackling, served either buttered or plain, the kind that refreshes the palate and pleasantly glides down the "red line."

ELECTRIC GRILL—\$4.00. When the housewife uses our electric grill she is independent of the King Cook, the chef and the cook's assistant on this round grill without fuss, mess, bother or delay. It broils, bakes, fries. Keeps the food hot and cooks cool.

Chafing grill—\$6.50. IRONS—\$4.50, \$5.50, \$6.50. When a woman buys one of our irons she proves that her common sense is working unopposed with. She gets an iron that doesn't add to her collection of rusting-day appliances but relieves her of them. Our iron retards the heat evenly and consumes less fuel because the units have more chrome ribbon. This also insures longer life to the unit.

Are your eyes well dressed?

There is "style" in glasses as well as in clothing. There is no more reason for wearing glasses that are unbecoming than there is for wearing shoes that do not fit your eyes.

An Efficient Service

We have established a service that takes in every branch of eyeglass science.

We fit your eyes correctly and scientifically. We furnish you with glasses that it will be a pleasure for you to wear.

Everything that eyes need will be found at—

The Quality Goes Clear Through

A Reliable Car

Perhaps the highest merit in a motor car is trustworthiness. And it is with this important consideration in mind that we recommend the Gray-Dort car.

It is powerful—well able to carry you to your destination without faltering.

It is speedy—above the full extent of your average needs, yet without the cost of a speed-way motor.

It is comfortable—comfortable in room and in smooth riding, sprung and cushioned for bad roads as well as good. That no other car of its weight and price is so comfortable, is our belief.

But above all the Gray-Dort is reliable. Trouble, as it is known to most motorists, is avoided by a minute and honest care in construction, a high standard of raw materials, rigorous attention to details.

These are the things that will eventually win you to the Gray-Dort.

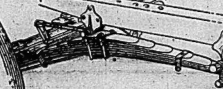

The new Gray-Dort embodies all the good features that won instant success for former models. The 4-cylinder motor is a triumph of smooth, economical speed and power. The chassis is sturdy and quiet. The springs are long. The upholstery is deep. The equipment is absolutely complete from electric starting and lighting to the tools. New lines of beauty have been given this model.

The four-passenger touring car is \$1,195; the three-passenger Runabout is \$1,050; the Gray-Dort special, beautifully finished, and with extra details of equipment, is \$1,285 above the list. All prices are f.o.b. Chatham.
